

C-TPAT Security Responsibility Statement

September 27, 2024

As a proud member of the U.S. Customs and Border Protection (CBP) C-TPAT program since November 5, 2016, supply chain security continues to be a vital part of V Opco, LLC culture and business processes.

From its inception in 2001, CTPAT remains a voluntary public-private sector partnership program where members work with CBP to strengthen its international supply chains and ultimately improve border security, protecting the supply chain from criminal activities such as drug trafficking, terrorism, human smuggling, and illegal contraband.

Vince has developed a Risk Assessment process, and maintains, a multi-layered security policies and procedures that are consistent with the CTPAT minimum-security criteria (MSC) and remains committed to protecting our organization and supply chain from any unlawful activities.

All employees and business partners, including vendors, service providers, and visitors are educated and must comply with the company's security policies and procedures that are in place at each facility.

A handwritten signature in black ink, appearing to be 'Jameson Shipley', written over a horizontal line.

Jameson Shipley
VP, Operations/Supply Chain
